

# DryJect®

The Premiere Injection Service that Aerates, Topdresses, and Amends in One Pass.

# DryJect®

WET

The revolutionary DryJect service is now even more flexible. Our most recent innovation allows you to use dry sand OR wet sand and achieve the same remarkable results.

**DryJect will no longer be limited to the use of only kiln dried sand!**

Through extensive research and development, we have engineered a special hopper configuration that includes rotating agitation and staged screening with vibratory assistance to assure affective flow of anywhere from slightly damp sand to wet sand.

Wet Sand, Damp Sand, Dry Sand, No Problem

Rain or Shine Capabilities

Cost Savings Opportunities Now Available

Injection that Aerates, Topdresses, and Amends in One Pass

## In The Field!

The Premiere Injection Service that Aerates, Topdresses, and Amends in One Pass.

Now even more then before....IT PAYS TO USE DRYJECT!

## How it Works

## More choices and flexibility!

The purchase of damp sands instead of dried sands can save buyers up to 80% on material costs. In areas where affordable kiln dried sand is not available, the Dryject aeration and injection process is now a viable option.

## Kiln Dried vs. Non-Kiln Dried
